

DHRUV GARG

Jaipur, Rajasthan

+91-8824950062 — dhruvgarg4848@gmail.com
GitHub — LeetCode — CodeChef — Codolio

Profile

– **Interests:** Generative AI, LLM Applications, Prompt Engineering, Machine Learning

Education

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT) 2023 – 2027
B.Tech in Computer Science and Engineering, CGPA: 8.5 Jaipur, Rajasthan

St. Peter's Sr. Sec. School 2022
Senior Secondary (Class XII), 89.8% Bharatpur, Rajasthan

St. Peter's Sr. Sec. School 2020
Secondary (Class X), 90% Bharatpur, Rajasthan

Projects

AI-Powered Fraud Detection & Automation System 2026

- Built a **Generative AI-based conversational agent (Llama 3 via Groq API)** using prompt engineering to simulate scam interactions and automate responses.
- Developed a **dual-layer detection system** combining rule-based methods (170+ patterns) and Naive Bayes model achieving **95% accuracy**.
- Designed an **automation pipeline to extract structured data** (bank accounts, UPI IDs, phone numbers, phishing links) from unstructured conversations.
- Built full-stack system using **Next.js, FastAPI, Redis**, improving workflow efficiency by reducing manual effort.

Live Demo: cyberguard77.vercel.app **GitHub:** github.com/mrdhruv2005

Flask Image Editor 2025

- Built a web-based image editor using **Flask & OpenCV** with features like resize, blur, and format conversion.
- Optimized deployment using **Gunicorn + Railway** and added automated cleanup using APScheduler.

Live Demo: web-production-b5474.up.railway.app **GitHub:** flask-image-editor

Internship

Kistechno Software Pvt. Ltd. July 2024 – Aug 2024
Web Development Intern Jaipur, Rajasthan

- Developed responsive web pages using **HTML, CSS, JavaScript**.
- Collaborated in team environment to deliver project modules on time.

Technical Skills

Languages: Java, Python, SQL

Core Areas: Generative AI (LLMs, Prompt Engineering), Machine Learning, Deep Learning, Data Structures & Algorithms

AI/ML Libraries: Scikit-learn, TensorFlow, Keras, PyTorch

Data & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Plotly

Development & Tools: Flask, REST APIs, Git, GitHub, Jupyter Notebook, VS Code

Achievements

- Solved **500+ DSA problems** on LeetCode, CodeChef, Codeforces.
- Top 10 in GIT Hackathon 2024 among 200+ participants.
- Exploring real-world applications of **Generative AI in workflow automation**.

Certifications

- Web Development Internship – Kistechno
- Python Training – GRRAS
- Python Essentials 1 – Cisco
